

Application Spotlight: Test Stands

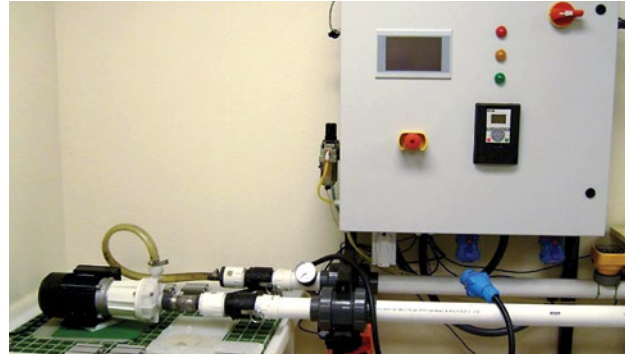

Details:

Test Stands are utilized in facilities everywhere to test equipment before it is sent out for use. OEMs must test out their products and repair facilities must test out their work before putting it back in service.

Often various amperages, voltages, and polarity must be tested regularly and quick disconnection is important.

Optional Feature Highlight:

Auxiliary contacts allow monitoring of additional connections.

MELTRIC's Plugs & Receptacles simplify test stand operation while maximizing worker safety

Key Benefits / Sales Points:

- ▶ Meet NFPA 70E safety guidelines
- ▶ Eliminate risk of arc flash
- ▶ Receptacles of varying Amperage, Voltage, & Polarity ready to go
- ▶ Plug and play simplicity with no risk of incorrect insertion
- ▶ Quick disconnect under load by any employee with MELTRIC Switch-Rated plugs & receptacles

Test Stand Applications:

- ▶ OEM Products
- ▶ Pumps
- ▶ Motors
- ▶ Marine Industry
- ▶ Skid Systems
