

## Optional Metal Pawls on Poly Receptacles

### product description – metal pawls

**Optional Metal Pawls now available**

Metal pawls can now be ordered as an option on DSN, DS, DR, DSDC and DXN Series poly receptacles.

#### Benefits of Metal Pawls

Metal pawls offer increased impact resistance and tensile strength for rough applications that frequently occur at shipyards, steel mills, large metal fabrication shops and other similar environments.

Customers who anticipate rough handling of their receptacles should consider specifying metal pawls instead of the standard poly pawls on all future orders.

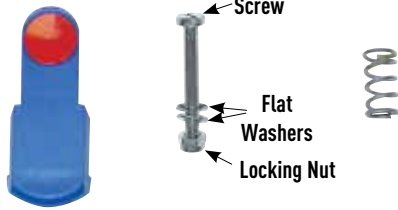

### ordering instructions and pricing

Model	Receptacle Option	Suffix #
<b>DSN20</b>	Metal Pawl	-824
<b>DSN30</b>	Metal Pawl	-824

## faq

### Are the metal pawl options listed in the catalog?

Metal pawl option suffixes are listed in the 2013 Meltric catalog for DSN, DS, DR, DXN and DSDC product lines.

### Is pricing available in the price book?

Pricing for the metal pawl options and the replacement kits is NOT in the 2013 price list. Contact customer service for pricing.
