

STANDARD DUTY

Plugs & Receptacles

MELTRIC's Standard Duty plugs and receptacles provide safe, economical and robust connections for applications up to 400 A. Each device features MELTRIC's spring-loaded, silver-nickel butt-style contacts for consistent and reliable connections. Exclusive safety features ensure operator safety.

DR P. 85

LARGER AMPERAGE RANGE

- 30 A to 400 A, Type 3R
- Poly or metal casings (most sizes)
- Larger conductor capacities

PN P. 103

COMPACT & DURABLE

- 15 A to 20 A
- Up to 600V

PNHT P. 111

HIGH TEMPERATURE APPLICATIONS

- Temperatures up to 465°F
- Up to 30 A, 480V, IP44
